

# Elevating Education: The TADS Suite for K-12 Private Schools

For over four decades, TADS by Community Brands has supported K-12 private schools with a purpose-built software suite that increases admissions and enrollment, streamlines tuition and student information management, and strengthens relationships with families. Our solutions and team of dedicated experts provide ongoing guidance to support reporting and analytics and efficient school management processes, allowing you to focus on what matters most—your vital mission of providing a quality education.

“

**Everything communicates. It just works together. Whether the topic is billing, projections, budgeting, or communicating with families, the information is all there and it's seamless.**

*Carrie Nelle,  
Student Information Coordinator  
St. Raphael's Catholic School*

## The TADS Suite Connects Your School Community

Family Focused

Advanced Analytics, Partners

School Focused

# Leverage the Power of the TADS Suite in Your Private School

## Lead Your School with Unified Technology

The TADS suite streamlines operations through centralized technology, reduces manual administrative work, and ensures consistent processes for diocesan offices and parishes.

## Gather Real-Time Data Insights with Advanced Diocese-Wide Reports

Further mission-based goals and informed decisions with school-wide and district-wide reporting and analytics tools. Gain insights into financial health, student enrollment, and forecast future growth.

## Convert Inquiries to Enrolled Students with Connected Workflows

Seamlessly move prospective families through admission to enrollment with connected workflows and communication. Stay current with admission and enrollment numbers with real-time data.

## Provide Financial Flexibility While Encouraging On-Time Payments

Improve tuition collection through flexible payment plans and a secure online payment system. Automate billing workflows and reminders to boost accuracy and prompt on-time payments.

## Are you interested in learning more?

Reach out to Becky Haghighi, our dedicated account manager for private schools. Becky is happy to help you find out how we can serve your mission with our technology solutions.

## Enhance Communication and Data Effectiveness Across Your Diocese

Use comprehensive tools for seamless communication with students and families, such as assignment management, grading, and student progress data across preferred communication channels.

## Promote Fair Access to Quality Education

Enhance accessibility to private school education for diverse students through an integrated financial aid platform. This ensures fair consideration for qualifying families and streamlines the awarding process.

## Power Your Mission with Reliable Support and Services

Accelerate your mission with advanced implementation services, custom training sessions, an online knowledge base, and phone or email support in English and Spanish from our expert team.
