

CHURCH AND SCHOOL
OF SAINT PETER

Streamlining Enrollment & Supporting Growth

By unifying admissions, enrollment, and tuition using the TADS platform, St. Peter Catholic School, a large preschool through eighth grade institution in Forest Lake, Minnesota, achieved a 23% increase.

The Opportunity

With a growing enrollment base, the school needed a connected, scalable enrollment solution that could support future growth, improve operational consistency, and reduce administrative burden so school staff to focus more on supporting families, maintaining high academic expectations, and upholding its Catholic values.

The Solution

St. Peter adopted the full TADS suite to simplify everything into one connected system—using features like rollover forms to reduce administrative complexity while giving families consistent reminders and support. With fewer manual updates and a smoother experience for both new and returning families, the school created stronger continuity across enrollment cycles and supported continued growth.

The Results

\$1.87M

tuition revenue

285

re-enrolled students

23%

enrollment growth

“Bringing admissions, enrollment, and tuition management together in TADS helped us make re-enrollment smoother, lighten the administrative workload, and keep the experience positive for our families.”

—Jessica Stimson, School Secretary
